THE CITY RATE CASE

The application of the City of Red Deer to the Public Utilities Commission had its hearing at the Court House on Thursday, Friday and Saturday of last week. Judge A. A. Carpenter and E. J. Fream constituted the Board for the hearing. The city was represented by W. B. Payne, K.C., City Solicitor, and H. R. Milner, K.C., of Edmonton. Frank Ford, K.C., appeared for the Western General Electric Company.

The application of the city was for reduced rates for electric current supplied for light and power. The first witness called was A. T. Stephenson, Secretary-Treasurer of the city since 1908 and an Alderman for several years previous to that date. He put in a statement of the assessment for each year and of the amount of taxes levied against the Company other than franchise and business tax. After stating a few of many complaints he had received against the Company, to which evidence Mr. Ford strongly objected, he told of compiling a schedule of the rates charged by the different municipalities in Western Canada with the discounts allowed. The Western General apparently had the most onerous rate in the west.

H. B. Mhanuell, of the Canadian Bank of Commerce, was put in the box to prove various accounts that were produced before the Commission.

The next witness was Frank Harvey, C.A., of Calgary, who had been engaged to make a special report on the books of the Company. He had made a full written report to the Council, and to save time Frank Ford agreed, after consultation, to let the report go in as evidence. The evidence of Mr. Harvey was in part as follows:

In many respects the Company's books of account have been well kept but, during the 20 years of its existence, numerous accountants have been engaged thereon and the method of distribution of expense and of capital expenditure have varied considerably; also there has been a marked lack of system in binding old ledger pages, and these two features have added considerably to the difficulties of tracing many of the accounts.

With a few exceptions the Company has willingly produced to us all records which we have called for and has given ready information in response to our enquiries. The exceptions have been:

Bank Account of the old Telephone Company which Mr. W. A. Moore states he has not got and has no authority to obtain.

Ledger pages of the following accounts and dates:

Estate of Annie A. Moore, prior to 1st October, 1916.

John T. Moore, prior to 1st October, 1916.

J. C. Moore, prior to 1st October, 1916.

W. A. Moore, prior to 1st October, 1916.

Mr. Moore informs us he has not got these, and does not know where they are.

The Western Telephone Co., Ltd., was incorporated on 17th December, 1902, with authorized capital of $50,000.00 in 500 shares of $100 each.

Under date of 29th May, 1903, the Company entered into a franchise agreement with the Town of Red Deer for the supply of telephone services and current for lights and power. We have seen no evidence that this Company ever reached the point of rendering these services, but there is evidence that the Company, or individuals on its behalf, did prepare to render such services and, to this end, numerous supplies were ordered and received. Some of these were paid for, but we have seen no records of such payments having been made by the Telephone Company out of its own funds. Such cash as was disbursed appears to have been paid personally by Mr. J. T. Moore and services were rendered by Mr. W. A. Moore by way of drawing plans and engineering services and supervision.

Acquisition of Telephone Company Assets by Light Company

On 8th September, 1904, the Telephone Company entered into an agreement with a newly organized Company, the Western General Electric Co., Ltd. (hereinafter referred to as the Light Company) whereby the latter covenanted to pay the Telephone Company $30,000.00 for all its undertakings, properties, real and personal, assets, licenses and franchises, the Light Company agreeing to pay, discharge, satisfy and perform all debts, obligations, undertakings, contracts, engagements and liabilities of the Telephone Company.

The earliest cash book of the Light Company purports to show, that on 9th September, 1904, was sum of $30,000.00 was received, by way of subscriptions to stock, and that a like sum was paid on the same day to the Telephone Company in terms of the agreement of 8th September, 1904. If a copy of the bank account of the Telephone Company can be produced, it should show that the $30,000.00 never passed to that Company.

The journal of the Light Company (folios 2 and 20) shows that the assets acquired from the Telephone Company were:—

Bank balance of the Telephone Company	$ 1,423.65
The right to collect shortpaid calls from Telephone Company shareholders	13,300.00
An undescribed asset which was charged to "Property, Business and Plant Account	15,076.35
	$30,000.00

The Bank Account was utilized by the new Company. The short-paid capital subscriptions were collected by the Light Company over a period of about a year. We are left to infer that the undescribed asset, $15,076.35, consists of $76.36 for some disbursement of the Telephone Company possibly connected with incorporation expense, and $15,000.00, probably representing a valuation placed on the franchise.

At no point in the history of the Light Company were the books better kept than at this period, and it is significant that, while all their assets are fully described and considerable detail is furnished concerning them, no attempt is made to show what the new Company got for this outlay of $15,076.35.

The entire absence of any information as to what the Light Company acquired from the Telephone Company for $15,076.35, together with the fact that the Light Company paid for all physical assets which it is known to possess, operates in support of the assumption that the Telephone Company did not stand possessed of any physical asset which they could turn over to the Light Company (other than those carrying a corresponding liability) and that the "undescribed asset" could not very well be anything other than franchise or goodwill.

Other payments by Mr. J. T. Moore are included in a credit to him of $2,463.89 and these also are included some which bear dates earlier than that of the incorporation of the Light Company. In the cases of Mr. J. T. Moore and Mr. W. A. Moore amounts such as these contributed to the creation of credit balances against which subscriptions to stock in the Light Company were charged at a later date.

Share Capital

Original Authorized Capital	$100,000.00
Increased 8th December, 1913, to	$500,000.00

Issued and shown on the books as fully paid up.... $ 91,200.00
Shareholders Shares Held

Geo. H. Locke, Toronto	75
J. C. Moore, Toronto	36
G. W. Smith, Red Deer	24
J. T. Moore Estate, Toronto	139
W. A. Moore, Red Deer	30
E. S. Hogg, Red Deer	10
Frances H. Moore, Red Deer	205
Geo. E. Wishart, Toronto	37
Grace M. Locke, Toronto	40
Grace M. Locke, in trust, Toronto	16
W. C. Moore, Toronto	244
Carrie B. Smith, North Bay	24
	912

Of the above shares:—

602 shares were fully paid in cash or services	$50,200.00
50 shares were charged to the account of Mrs. Annie A. Moore	5,000.00
30 shares were charged to the account of W. A. Moore	3,000.00
80 shares were allotted to W. A. Moore, 1911, as against deferred salary	8,000.00
250 shares were allotted to J. T. Moore, 1911, for services rendered	25,000.00
912	$91,200.00

The account of the Estate of Mrs. Annie A. Moore is substantially at debit at this date. No statement could be found showing the condition of her account when the shares were allotted. We are, therefore, unable to say whether or not these shares can be considered as having been paid for.

The account of Mr. W. A. Moore now shows a balance in his favour, but the question of what was or was not the above 30 shares can be considered as having been paid for should be taken in conjunction with the sum of $8,500.00 credited back to him in the accounts of September, 1913, and also $3,895.45 interest charges against him which were reversed, and further questions of interest in connection with the same account.

The way in which shares to the value of $8,000.00 were allotted to Mr. W. A. Moore in August, 1911, was as follows:

At the meeting of 31st August, 1911, it was moved by E. S. Hogg and seconded by G. W. Smith, that whereas the Manager of these works has discharged the duties thereto pertaining in a faithful and efficient manner since 1st October, 1904; and whereas the management of the Company during the initial stages of the enterprise and up to that date had required from the manager greater effort and ability than had been compensated for by the salary paid to him; it was resolved that the Company authorize the directors to credit W. A. Moore with $8,000.00, made up as follows:

$1,000.00 for each year of his tenure of office from 1st October, 1904, to 1st October, 1911, plus an allowance of $1,000.00 interest. It was further resolved that $8,000.00 of this be paid by the allotment and issue to him of 80 fully paid shares of $100.00 each. The balance of $370.00 was placed to his credit in current account.

At the general meeting of shareholders held on 22nd November, 1910, it was moved by G. W. Smith, and seconded by E. S. Hogg, that whereas J. T. Moore had presented an account for services in respect of promotion and organization of the Company and conducting numerous negotiations upon its behalf from time to time, clerical services including supervision and advising upon the Company's affairs, financing on behalf of the Company including his becoming obligor for the Company's indebtedness, and the furnishing securities from his personal estate for the benefit of the Company, which account amounts in all to $25,000.00, and whereas the said claim is a just and reasonable one and one which the Company ought to pay; it was resolved that the account be paid by allotment and issue to J. T. Moore of 250 fully paid shares of $100.00 each.

(Continued on Page 7.)

COOKE—TETLEY

(Innisfail Province)

St. Marks' Church was the scene of a very pretty wedding on Wednesday, when one of Innisfail's daughters, Miss Dorothy Cooke, became the bride of Mr. Rex Tetley, of Pine Lake. Much interest was taken in the event, the bride belonging to one of Innisfail's oldest families, and being a native of the district, consequently well known. Miss Cooke's father is one of Innisfail's original settlers, coming in ahead of the railway, and together with his father taking up land on the section immediately south of the fair grounds.

The bride is a niece of Mr. H. McDermott and Mrs. Munton and also of Mrs. J. R. Moore.

Mr. Tetley is a well known resident of Pine Lake and engaged in farming in that district.

• • •

T. A. Wiltshire has purchased from the Hamilton Estate the store and bakery premises he now occupies, and has also installed a complete new oven. His consistently good bread is winning him a steadily growing market from outside as well as local consumers.

• • •

Robert Forrester, Mrs. Clara Forrester, C. D. Locke, V. Pastoholi, Mrs. F. Searancke and Mrs. J. A. Smith were among the 125 contestants who successfully figured the weight of the elephant in the Alberian figure contest. The number of successful ones speaks well for the popularity of the Albertan here and of the enterprise of their local agent, Cyril Abrahams.

J. E. BROWNLEE, K.C., WILL SPEAK HERE MONDAY

At the monthly luncheon of the Board of Trade the speaker will be J. E. Brownlee, K.C., Attorney General of Alberta. Mr. Brownlee has the reputation of being an able speaker, and the real head of the government, and the Alexandra Hall should be packed.

Tickets to the luncheon are 75c, and are now on sale.

JULY 1 PICNIC

A wonderful time is assured for July 1. Everyone reported having an excellent time last year and, accordingly to the committee, this year will be better. The district baseball teams are all practicing up, Penhold looking to repeat last year's victory, and others looking for revenge. There will be several good football games, races of all kinds for the children, and several unexpected forms of entertainment. There is no admission charge, and tea and coffee will be supplied.

In the evening a dance will be held, for which a charge will be made to cover expenses.

EUGENE MURPHY RECITAL

The Methodist Church was crowded on Friday night for the first recital of Red Deer's talented young artist, Eugene Murphy, L.A.B. His appearance was the signal for prolonged applause, which increased after the rendition of each number. After he had played the closing number, he was obliged to return for two encores before he was allowed to depart.

The programme included numbers everywhere calculated to be stupendous, but at no time was there the slightest trace of hesitation or difficulty.

We must expect to lost Eugene from Red Deer, for he is destined to go far in his chosen profession, and will in the near future have audiences in the world's centres at his feet as were his home folks on Friday night.

The programme was as follows:

Gavotte	Brahms-Gluck
Ecossaise	Beethoven
Ballade in A Flat (Contest number at Ontario Musical Festival, Toronto, 1924.	Chopin
Nocturne D	Chopin
Gigue	Martini
La Campanella	PaganinFLiszt
(Final contest number at the Ontario Musical Festival, Toronto, 1924).	
Liebestraume (Love Dream No. 3)	Liszt
Alt-Wien	Godowsky
Hungarian Rhapsody, No. 2	Liszt

FATALITY NEAR DELBURNE

C. W. Summers, a Presbyterian student who had just a few days previously arrived to take charge of the mission at Lousana, received injuries from which he died on June 4th, after having been brought to the Red Deer Municipal Hospital.

It appears that he was riding a spirited horse, and was thrown, as a result having the bones of his right leg broken. A splinter of the bone cut through the flesh and cut a large blood vessel. He bound up the leg, using his handkerchief and pen as a tourniquet, but lost a great deal of blood. He then crawled through the bush for some time before any help arrived. He had another long wait for the doctor, Dr. Gillespie, of Delburne. He was at once brought to Red Deer, but the shock and loss of blood had been too great and he died quite suddenly.

His parents in Ottawa were notified, and on their instructions the body was shipped to Ottawa after funeral services had been held in Knox Church here.

Deceased was a veteran of the Great War, and many small kindnesses and great sympathy were shown him by the local G.W.V.A., Presbyterian Young People, and others.

JOFFRE ITEMS

The Blackfalds basketball team visited Joffre on the 2nd of June and played the Joffre team. After a very exciting game Blackfalds were declared the winners by 43 to 27. After the game an ice cream social took place, which included sports, concert and a dance, the 'Griffiths Orchestra' providing the music for the dance, which was thoroughly enjoyed by all. The committee in charge wish, through these columns, to thank all those who helped to make it the success it was. We might mention here that our basketball is now paid for.

Miss Clara Richardson is a Lacombe visitor for a few days this week.

A very interesting football game was put on in Joffre Saturday evening, between the married and the single men. Both teams were evenly matched and a good game resulted. The score was 2-1 in favor of the single men. John Russell umpired the game. We think if the young men had had Jim Riddoch, who is an old rugby player, the score might have been much larger for the single men.

Mr. and Mrs. P. M. Campbell were Red Deer visitors this last week.

The elevator closes the 20th of June. Anyone having grain to dispose of would do well to get it in before that date.

Friends in this district will be pleased to hear that Mr. H. J. Tutenburg is doing splendidly after the serious operation he underwent in the Lacombe Hospital recently.

Mr. and Mrs. R. H. Blades motored to Edmonton on Tuesday to see the basketball game between the Edmonton Grads, and the "Favorite Knits" of Cleveland.

OLDS CRICKET TEAM HERE TODAY

The team to play Olds this afternoon will be as follows: Messrs. Bowne, Brown, Buck, Cotterill, Filmer, Goodey, Kent, Lavender, McKenzie, Morris, Neal and Streatfield. These men should be on the field at 2.30 sharp.

This is the first league game of the season. Olds have a strong team and have been playing regularly. A good game can be expected.

THE FATAL SEVENTH

Mirror chose Bill Walker to do their mound duty in last night's game when any Red Deer fan could have told them that Bill could never get past the 7th inning. At that Bill pitched good ball and got splendid support, the Mirror team only making one error.

Osterland for Red Deer pitched a splendid game, putting out 13 Mirrorites by the whiff route and fielding his position perfectly, but the hero of the game was the old war-horse, Percy Smith, whose lovely hit in the 7th tied up the score and put life in Walker's heart. And then, in the 8th inning, when Mirror had the bases full with nobody out, Percy fielded Lapp's hit perfectly and pegged to McLaren to catch Reay coming home. The next Mirror batter fanned, and the third out was the result of Nelson neatly handling a line drive from Cairns.

Red Deer only got 4 hits, but two of them, one a two-bagger, were in the fatal 7th, and coupled with a poor throw by Lapp and sloppy work by Wagner at second, they gave us four runs.

And so Mirror's boasts were brought to nought, and Bill Walker says that hereafter he wants to play ten-inning games with the 7th inning omitted.

In the 6th inning, after one Mirror batter had been retired, Langley made a nice catch of a long foul fly from Walker's bat, and then Red Deer pulled a snappy double play, Day to Malcolm to Smith, to retire the side.

Mirror's two runs came in the 2nd inning, and were the result of an error and wild throw by Nelson when the bases were full. The next three batters up fanned.

Box Score

Mirror—	AB	R	H	PO	A	E
A. Reay, c	5	0	0	7	1	0

MUSICALE

Miss Daisy Gaetz and a few of her pupils presented a very pleasing program at her home on Saturday afternoon, the parents and a few friends being present. Following is the program, which was much appreciated and enjoyed by all present:

Piano—Sonatina	Clementi
Ted Graham	
Piano—Minuet	Bach
Leonore Stephenson.	
Song—My Mother Bids Me Bind My Hair	Hadyn
Maiden's Wish	Chopin
Miss Daisy Gaetz.	
Piano—Narcissus	Slater
Ted Graham.	
Piano—Midget Dance	Espioff
Thelma Halladay.	
Piano—The Mill	Jensen
Doris Webb.	
Song—Should He Upbraid	Bishop
Miss Daisy Gaetz.	
Piano—La Jeunesse	Conde
Doris Webb.	
Piano—Juba Dance	Dett
Gertrude Connors.	
Song—Still Wie Die Nacht	Bohm
Memory	George Thomas
Miss Daisy Gaetz.	

Accompanist—Dorothy Gaetz.

BROOKSLEY BEAMS

Mr. and Mrs. John Morton and family left by car for Iowa last Monday.

A number of those interested in the Boy Scout and Girl Guide movements gathered at the home of Mrs. Marshall on Friday last to meet Mr. and Mrs. Crosby and Mrs. Munro of Red Deer, with a view to starting a movement of the above troops in the Brooksley district. The children are keen.

HAYNES HAPPENINGS

Miss Violet Knott left last week for her home in Manitoba, after spending the last four months with her sister, Mrs. Stuart Thompson. Miss Knott accompanied her father east. He also had stopped off a few days en route from Victoria, where he had been spending the winter months. Mr. Knott enjoyed a few days with the family and taking in the surrounding district. Miss Knott made many friends in Haynes who will hope for a return visit in the future.

Ha! The Cheerful Wrigglers have their courts ready and their ball in shape ready for a good practice for the tenderfoot basketball team for Saturday evening. The school team are also trying to get their grounds in shape. When all they need is practise and lots of it.

The baseball boys are trying to get in shape to play Satinwood in the near future.

Everybody is busy on road work who can get away at all, and a lot of road improvements are being done under Mr. Sherburne's direction.

Mr. Shepherd has been quite sick this past week, but somewhat improved.

Lots of grain coming in lately.

The Ladies' Club met for June with Mrs. Richardson with a good attendance and a very enjoyable time for the social hour. The Club expressed their appreciation of the short Course given by Miss Tillie for the Department of Agriculture, and hope to have it again in the future.

There was a good crowd attended U.F.A. meeting on Tuesday night to hear Mr. Larsen, of the Alix Creamery, speak to the farmers on the cream problem and the care of cream. Also other matters of interest were well discussed.

PENHOLD NOTES

Neil McFee returned to this district Saturday after visiting at the Coast. He is looking well and says he intends visiting with his sons in the Edwell district for the summer and fall.

John Bickley, of Ridgewood, left yesterday for a visit at Guelph, Ontario.

Rev. W. G. Brown, of Red Deer, will conduct the anniversary service in the Presbyterian Church next Sunday evening at 7.30. On the Monday, June 16th, there will be the anniversary concert and social in the Memorial Hall at 8 p.m. Admission, adults 35 cents; children 20 cents.

Mrs. Wood has received the following letter:

Dear Mrs. Wood:

Re. my millinery course in Penhold: I very much desire all students to be present the first day, as I give a talk on harmony of color and outline, and styles pertaining to different types of women. Students must have pencils and note-paper, also two pieces of paper, "wrapping" will do, size 16x16, for cutting patterns.

I will be with you June 23 to 27.

Sincerely,
Mrs. Harriet L. Nye,
Teacher of Millinery.

The regular monthly meeting of the W.I. will be held at Mrs. Reeves on June 19, when the report of the annual convention will be given. Everybody welcome.

Mr. England, of the Co-operative store, has been elected on the Council in the place of A. W. Walker, retired. The Council held their first meeting on Monday evening, when N. Stewart was elected Reeve. They arranged for a village pound and also enquired into the title for the nuisance grounds.

The boys are working hard to make the annual sports day on July 4 a big success.

There was a splendid turnout at the Oddfellows meeting on June 3 and the officers would like to see as many every week. Bro. A. Wood was elected Noble Grand, Bro. G. Coote Vice Grand and Bro. McAllister recording secretary for the coming term.

A travelling company are putting on a Mystic Musical evening in the hall on Saturday, June 14th.

Miss Cummings spent the week end with her parents at Wetaskiwin.

Horn Hill picnic on Wednesday.

First Shoot of Penhold Rifle Association for the Season, June 7th.

Next shoot will be this Saturday June 14th. This will be the first league shoot.

ODDFELLOWS' ANNUAL PICNIC

The Oddfellows' Annual Picnic will be held on Wednesday, June 18th, 1924, at Waskasoo Park. The Oddfellows' wives, Rebeccas and children are cordially invited to attend. The picnic will start at 3 o'clock sharp. Cars will be on hand for ladies and children by phoning 48 and 49. There will be plenty of sports for the children and grown-ups, with lots of good things to eat.

CONDOR W.I.

A special meeting of the above was held in Condor on Thursday, June 5th, in order to hear the report of the Presidents, Mrs. Frost, on the Calgary Convention. For this reason the usual business routine was dispensed with.

Mrs. Frost gave a very graphic account of the Convention, and brought some very useful points to the notice of the members, such as the appointing of a visiting committee, a rest room for the members, a girls' club, debates, etc.

Mrs. Frost also gave a scientific method of making a kimona dress without a pattern in forty minutes, viz.: First, fold material in four, measure bust, allow six inches, measure distance round arm, allow from 4 to 6 inches more, measure length, allow 6 inches more, measure round neck, allow 4 inches more, cut out, slope up sides two or more inches to prevent sagging of material.

Arrangements were also made to hold an entertainment and dance in the hall on Friday, June 20th. The programme will consist of two sketches, "From Down East" and "The Ragg Carpet Bee" with songs and choruses in the interval. Admission to the entertainment, adults 50c; to the dance, gentlemen 50c.

On the motion of Mrs. Porter and Mrs. Bice, a lunch committee was formed to serve at all W.I. socials, consisting of Mrs. Simmons, Mrs. Porter and Mrs. Pratley, and on the motion of Mrs. E. Meeres and Mrs. Simmons, Mrs. R. MacFaul was appointed Roo-manager, after which the meeting adjourned until June 19 at the home of Mrs. Porter.

There will be a meeting in the Poplar Ridge Community Hall on Friday, June 13th, to consider the advisability of installing a new piano. All parties who are interested in the hall are requested to attend.

LESLIEVILLE

We are glad to be able to report the excellent progress the crops are making in our district. Although some are still engaged in seeding operations, the most of the seeding is finished.

Scene: Leslieville Mercantile.

"Hello, Charlie, how's business?"

"Sold a radio!"

"To h——, you did."

"Yep."

Well, he's a radio fan, all right. He's in the business. Better see Charlie if you want to get on the air.

Quite a number of people visited Eckville on Tuesday to attend the sports there. All report having had a fine time.

A very interesting meeting was held in the hall on Friday last. Mr. Ralph Patterson, Manager of the Central Alberta Livestock Shipping Association, gave a very interesting and enlightening address on the various branches of the association's work. For some time past there has been an under-current of dissatisfaction with the shipping association. We feel confident after this visit of the manager there will be a better understanding between the producer and association.

78th BATTERY CANADIAN FIELD ARTILLERY

Orders by Major R. C. Lister, M.C., M.M., Commanding.

Training: Training will re-commence on Wednesday evening, June 11th, at the drill hall, at 8.00 o'clock.

Pay: Pay will be issued to those completing eighteen evening drills, not more than nine days' pay to be given, at regimental rates. One afternoon counts as two drills.

N.C.O.s: Only N.C.O.s qualified for their respective ranks will receive pay of their ranks, unqualified N.C.O.s are filling acting ranks only, and will receive pay as gunners, unless overseas service is shown.

Gunlayers: The indoor target will be set up at the drill hall outdoors, so as to get better practice from sighting points. All N.C.O.s and gunners must pass laying tests. Qualified layers will receive 25 cents per day extra pay.

Inspection—The General Officer Commanding the District will inspect the unit some time in August, possibly the 15th. All members must sign the pay sheet thrice before inspection, otherwise no pay will be forthcoming.

Mounted Parades—Mounted parades will be held each week until General Inspection date. All signallers and specialists and Nos. 1 are required to be on these parades, as instruction in riding and duties will be given.

R. C. LISTER, O.C., 78th Bty. C.F.

CHURCH NOTICES

St. Luke's (Anglican) Church, Trinity Sunday, June 15, divine service as follows: 11 a.m., Holy Communion; Eucharist; 2.30 p.m., Sunday school; 3.45 p.m., Holy Baptism; 4.00 p.m., Confirmation Class; 7.30 p.m., Choral evensong and sermon. Revd. G. McComas, M.A., Rector.

Knox Church, June 15th: Public worship at the usual hours. Morning subject, "To an Unknown God." Series —Studies in the Book of Acts. 4.30 p.m., Sabbath school. Evening worship will be conducted by the Rev. T. H. McAllister of Penhold. 7.15 to 7.30, Service of Song

Balmoral school, June 15th: All the people in the district are invited to public worship, which begins promptly at 2.30 o'clock.

Christian Science Society: Services Sunday at 11 a.m. and Wednesday evening at 8 o'clock. Reading room open Thursday afternoons from 3 to 5 except on holidays. The public are cordially invited to attend.

The Methodist Church, Pastor Rev. J. W. Churchill. Services at 11 a.m. and 7.30 p.m. Sunday school after the morning service 11 a.m., Children's Service. Flowers and singing birds. The orchestra will attend. Special music and special address. 7.30 p.m., "A Bible Character." "The man who meant no harm." Bright services; helpful fellowship. Don't miss these services.

CANADIAN BRIEFS

Swiss Guides for Jasper: Two Swiss Alpine climbers have arrived at Jasper Park Lodge to act as guides to the tourists who want to see the sights of the Rockies in Jasper National Park and Mount Robson Park. They are Alfred Streich and Hans Kohler, both born mountaineers, and are engaged by the Canadian National Railways.

April Immigration Figures: During the month of April 19,330 immigrants entered Canada, as compared with 950 in April, 1923, according to figures received by the Canadian National Railways from the department of Immigration. Of those admitted, 9,410 were British, 1,838 were from the United States, and 8,082 were from other countries.

Flour to Hong Kong: The first entire shipload of Canadian flour has arrived in Hong Kong, according to advices received by a western milling company. The shipment, which constitutes an innovation in the history of trade, contained 7,000 tons of flour and was shipped from Port Colborne, Ont., making the trip to Hong Kong from Baltimore, via the Panama canal, in 55 days.

Radio Assists Immigrants: Radio has already proved a valuable help to the Immigration authorities in placing immigrants on the land. The Winnipeg offices recently wired information to Saskatoon announcing the arrival of farm laborers seeking work. This was broadcast all over Saskatchewan and within twenty-four hours applications for workers were pouring in to the authorities. The experiment was such a decided success that it is probable the radio will be utilized extensively in the future in the placing of men on the farms. About five farmers in ten, it is estimated, have radio receiving sets.

Rotary City: Winnipeg will be a Rotary City on June 13, when Rotarians from Australia, New Zealand, United States and Western Canada will spend a day there en route to the annual international convention being held in Toronto June 16 to 20.

Coal Locations Sold: Many coal mine locations in the province of Alberta have lately been bought up by British interests, who have had their agent touring the coal fields of the province recently.

Farm Exports Jump: Canadian Farm products shipped to the United States during the seven months ended April totalled $43,285,012 as against $32,107,891 during the corresponding seven months two years ago.

ENTERPRISING ISSUE

The Wetaskiwin Times got out a very attractive and ambitious issue the latter part of May. Besides the usual paper, there were 16 pages of information about Wetaskiwin, and advertisements from the business men. The whole thing was very nicely printed on book paper.

EXAMINER'S REVIEW OF PROVINCIAL MARKETS

Calgary, June 6th.

Cattle—
Beef—Calgary prices steady during the week, with the run of good cattle rather light; choice heavy steers, $6 to $6.50; choice light, $6 to $6.25; good, $5.25 to $6; medium, $4 to $5; common, $3.50 down. Choice heifers, $5 to $5.50; good, $4 to $4.75. Choice cows, $4 to $4.50; good, $3.75 to $4; medium, $3 to $3.75; common, $2 to $2.75; canners from $1.50 down. Choice veal, $7.50; common calves, $2.50 to $4.50. Choice bulls, $2 to $2.75; medium down to $1 to $1.50. Feeders, Stockers—Not very much action, with feeders $3.50 to $4.50; stocker steers from $2.50 up; stocker heifers, $2 to $2.75; stocker cows, $2 to $2.75.
Beef—Edmonton market was not very active, but prices on fat cattle steady, with choice heavy steers $6 to $6.50; choice light, $6 to $6.25; good, $5.50 to $6; medium, $4.50 to $5. common, $3 to $4. Choice heifers, $5 to $5.50; good, $4.50 to $5. Choice cows, $4 to $4.50; good, $3.50 to $4; medium, $3 to $3.50; common, $2.50 to $3; canners, $1.50 to $1.75. Choice fat bulls, $2 to $2.50; medium, $1.50 to $1.75; canners, $1 to $1.25. Choice veal calves, $7 to 7.50; common heavy, $3 to $4. Feeders, Stockers—Only best in demand, with tops at $4.5 and down to $3.50; stocker steers, $2.50 to $3.50. Stock heifers, $2 to $3; stock cows, $1.50 to $2.
Hogs—
Calgary market showing a little firmer tone with sales during the week at $6.75, thick smooth, off cars; bacon 10 percent. premium; today's sales, $6.75.
Edmonton prices firm to strong with off car prices on most of the sales $6.75, up to yesterday, when sales were at $6.85, thick smooths, off cars; bacon 10 percent. premium.
Sheep—
All Alberta yards showing very light receipts; Calgary had the first consignment of spring lambs, small bunch, averaging 60 pounds, which sold at $16 per hundred; other lambs probably worth around $13; wethers, $12.50, and fat ewes, $6 to $8. Prices are nominal, as sales are too limited to establish quotations.
Grain—
Prices have been going off a little all week, and the export buyers not as keen as they were previously. Interest in the purchasing world just now is centred in the Canadian and American crop conditions and with a fairly encouraging prospect in both countries, they are not very keen buyers. Conditions in western Canada have been mostly favorable during the week, but for the coming month there will be quite a lot of rain needed in Alberta.
Butter—Butterfat—Cheese—
Creamery Butter—No change in prices, though car lot movement is light, and prices Alberta points, 29c to 30c. Outside prices are low, but Montreal, Winnipeg and Vancouver are showing some interest in prices. Dairy Butter—Not much interest in trade just now; fancy table stuff at Calgary quoted 22c at the market stalls to the makers; dealers pay for straight receipts, 16c. Cheese—Unchanged, but market not any too good. Cream—Prices up Thursday morning 2c, specials 33c; No. 1, 31c; No. 2, 28c; off grade, 22c; advance uncertain and liable to change suddenly.
Eggs—Poultry—
Eggs—Unchanged and Calgary and Edmonton dealers quoting extras 20c; No. 1, 18c; No. 2, 13c; cracks, 9c; shipments in to Calgary grading 60 to 75 percent. No. 2; lack of cars at shipping points said to be reason. Poultry—Market somewhat slow and weaker. No demand for staggy chickens; fowl, dressed, down to 18c to 20c.
Hay—
Market very quiet and not enough moving to make quotations reliable.
Potatoes—
Alberta business light; country point prices around $15; Calgary deliveries, $17 to $20.
Hides—
Market still very indifferent and tanners don't care whether they buy or not.

SASK. DRYS SEEK HONEST POLICE

Saskatoon, Sask., June 5—Formation of a provincial fund, subscribed a dollar each from prohibition believers to "enforce enforcement of the Saskatchewan Temperance Act," was proposed and approved at a prohibition meeting here tonight. The proposal will be sent to the central prohibition league committee for consideration.

It was maintained that if the "drys" had a fund to be spent in the employment of first class, honest detectives, whose duty would be to check up the enforcement of the act and see the government did its duty, then immediate results could be obtained.

SUMMER VACATIONS

A neat little pamphlet has been prepared by the Canadian Pacific Railway with a view to assisting the public to plan their summer vacation trips. A large number of summer excursion fares and sleeping car fares are quoted in it.

The Company has also issued a compact pocket folder regarding the "Trans-Canada Limited"—the fastest train across Canada, giving schedules and other information.

A copy of either or both of these will be gladly furnished to anyone upon application to the Canadian Pacific Ticket Agent. May 28, 3w.

Here and There

The Canadian Pacific steamer Empress of Britain will arrive at Quebec shortly on her first voyage from Liverpool as a cabin-class steamer under her new name Montroyal. She is the fastest vessel sailing out of Liverpool and is scheduled to run from there to Quebec in six and a half days.

British Columbia's payroll for 1923 was $150,000,000, according to the annual report of the Workman's Compensation Board. The payroll for 1922 was $128,592,502, and for 1921, $130,099,373. Employing firms operating at the end of last year numbered 6,524, an increase of 145 over the previous year.

The 1924 season for the port of Montreal was officially opened on the morning of the 18th of April, when the Government ice-breaker Lady Grey arrived in the harbor. A big season is anticipated, especially by the Canadian Pacific steamships, whose vessels on the St. Lawrence route this year will exceed 197,000 gross tons.

Vancouver this season has beaten Portland, the great wheat port of the Northwest and formerly the great wheat port of the Pacific. Portland includes flour in its wheat totals, Vancouver does not. According to the Portland press the American city has moved over 29,000,000 bushels of wheat to date. Vancouver, in the same period, shipped 36,000,000 bushels, exclusive of a very considerable quantity of flour.

The much prized Wilder silver medal, the highest award of the American Pomological Society, the oldest horticultural body in North America, has been awarded to the Central Experimental Farm at Ottawa for the sixth time. The medal on this occasion was given for the Lobo apple, one of the many fine varieties of McIntosh Red parentage originated at the Central Farm.

An estimate of $1,500,000 for fire protection and management of forest reserves has been placed before the Government for approval by the Minister of the Interior. The Minister stated that more drastic measures of fire prevention would be taken this year and in this connection the Department of the Interior proposes to utilize the Royal Canadian Air Force for the detection of fires.

An appeal for increased pensions for the originals of the old Royal North-West Mounted Police is now before the Federal Parliament. The present pensions are based on the pay standards of 20 to 30 years ago and are therefore quite inadequate, the appeal claims, and it is asked that they be raised to the same level as those granted members of the present Royal Canadian Mounted Police, on retirement.

"There is not a single geological reason why each and all of the world-famous mining camps, such as those of Kirkland Lake, Porcupine and Sudbury, should not be duplicated almost anywhere in the 650,000 square miles of the Quebec Laurentian Plateau, which stretches from the Ottawa and St. Lawrence Rivers to Hudson Strait," according to a statement made by T. C. Denis, Superintendent of Mines of the Province of Quebec, at a recent meeting of the Quebec branch of the Mining Institute of Canada.

Canada is financially sound. On April 14th the investors and savings account holders of the country were offered twelve million dollars worth of Canadian Pacific Railway five per cent bonds and by four o'clock that afternoon the issue had been over-subscribed and the books were closed. Telegraph orders came from all parts of the Dominion, a splendid evidence of the amount of money available for sound investment and the country's confidence in the future of the big railway. Another evidence is seen in the fact that small investors are putting savings into C.P.R. common stock which pays ten per cent on par value of $100,000. Since 1907, Canadian holdings of this stock have increased from 9.75 per cent to 21 per cent at the present time and holdings in the British Empire total about 75 per cent.

CO-OPERATION IN ALBERTA

Annual Meeting of Alberta Co-operative League

Eighty years ago, a group of textile workers at Rochdale, Lancashire, England, tired of being, as they considered, exploited by greedy storekeepers, decided to do their own storekeeping, and established a small retail store. The association they formed had thirty-eight members, and started business on a capital of £28. Their organization was on an entirely new plan, which has come to be known as "The Rochdale Plan." Dividends, instead of being paid on the basis of capital invested, were paid on a basis of volume of business done, capital being borrowed at a fixed rate of interest. After provision for reserve and educational funds and necessary overhead, all surplus profit was divided among the purchasers in proportion to the volume of their buying. The idea was a success, and was very largely imitated. Out of this small start grew the great "co-operative movement" which is in operation today in all the most progressive countries in the world.

One of the latest areas to adopt the Rochdale plan was Alberta, and on Tuesday, June 3, the Alberta Co-operative League celebrated its first birthday, holding its second annual convention in Red Deer at the city hall. The meeting started at 1 o'clock, lasted until 7 p.m., and in consequence of this long session, the business scheduled for two days was all cleaned up in one.

Those present at the gathering included the following delegates from some of the local co-operative associations in the province: Mr. A. Litt, Bentley, chairman; Mr. T. Swindlehurst, Edgerton, secretary; Messrs. Rasmussen, A. P. Moan, Wetaskiwin; R. M. McCool, Crossfield; Palm, Stone and H. P. Hansen, Bentley; S. S. Sears, (U.F.A.) Nanton; W. Halsall, Killam; and M. W. Molyneaux, of the U.G.G., Calgary. Mr. H. Wallace, Red Deer, was also present, and Mr. J. E. C. Oldford, Penhold, and Mr. L. J. Porter, Red Deer, were present for a short time towards the end of the meeting.

President's Address

Mr. A. Litt, President, after welcoming the delegates and visitors, briefly sketched the development of co-operation in the Province during the year dealing with its two great phases namely, marketing organizations and consumers' organizations. He laid stress on the wastes inseparable from the competitive system as the great economic leakage. He thought the only feasible remedy was the development of a strong organization of consumers including the formation of new associations. He believed the help of existing organizations, such as the U.F.A., might be profitably enlisted.

Secretary's Report

Mr. T. Swindlehurst, of Edgerton, the secretary-treasurer, presented a brief general report of the year's work. Apart from the bare statement of facts and figures, the point on which he dwelt most strongly was the importance from a civic point of view of the cultivation of the co-operative spirit. He referred to the presence in the Dominion Parliament of Mr. Good, President of the Canadian Co-operative Union, and of Mr. H. Spencer, member for Battle Valley.

At the inaugural meeting of the League in Wetaskiwin last year, twelve associations were represented including the Co-operative Union, whose secretary, Mr. Geo. Keen, was present. Only one executive meeting was held during the year, at which the bylaws and constitution were drafted for approval by the present meeting.

Combined Buying

Mr. S. Sears, of the U.F.A., Nanton, dealt with the subject of Combined Buying and the Establishment of a Co-operative Wholesale Agency. Mr. Sears is a fast speaker, and covered a tremendous amount of material in a short time, reading letters, reports, quotations, statistics and comments galore. The three methods he decreed possible, for an approach to the wholesaling problem, were: 1. An agency; 2, a syndicate; 3, a central wholesale association. None of these were quite feasible enough at present owing to lack of capital, and he thought the next best thing was the employment by the retail associations of a sort of travelling auditor and stocktaker, who would see what goods were moving fastest at each place, and could perhaps advantageously make up a mixed carload lot, loaded so that the shipments could be unloaded at each place without disturbing the rest of the car. He thought local control was a mistake. He believed in the advantages of advertising, and that very favorable terms could be arranged with Vancouver jobbers and manufacturers, now that the western route was so much to the fore. If we did eventually get a substantial market there for our products, a two-way traffic would be cheaper and more economical.

A Boost for Local Wholesalers

Mr. H. Wallace, Red Deer, who took part in the discussion opened by this speaker, welcomed the delegates to Red Deer and hoped this would not be their last visit here, although it was their first. He had been in retail business for twenty-one years, and thought he knew it pretty thoroughly. Frankly he was more interested in the selling than the buying side of co-operative trading. He advised co-operators to exercise special care in the selection of their managers. We had two wholesale houses in Red Deer, which had a fairly complete control of farm products here. This speaker spoke very highly of the local wholesale firms, and the chairman, backing him up, spoke especially of the reasonableness and fair dealing of Campbell, Wilson & Horne.

At this point Mr. Sears, of the U.F.A., said that he expected to be in Calgary for a couple of weeks, and offered his services to do some buying for the League, suggesting that a committee be appointed to get the requisitions, pool them, and arrange the details with him.

Mr. McCool moved, seconded by Mr. Palm, that a committee of three be appointed to deal with the whole subject of concentrated buying, with power to add. The committee selected consisted of Messrs. Sears, Moan and Litt. Upon their selection they promptly co-opted Mr. McCool.

Egg Marketing

Mr. H. Wallace gave the delegates an outline of the amazingly successful operation of the Red Deer Egg Pool during the short time since it has been started. This subject was to have been presented by Mr. Ralph Patterson, but he was unavoidably absent, and Mr. Wallace acted as his deputy. Hon. Mr. Craig had told the Red Deer farmers they put too much emphasis on marketing and not enough on improving the quality of their products. The speaker was satisfied that Mr. Craig was mistaken, and had told him so. The Central Alberta Farmers' Co-operative Marketing Association had just passed the quarter million mark for this year. They absolutely knew that they were in the right track. A year ago the question of an egg pool had come up for discussion, and this spring they had got busy. Messrs. Murray, Van Slyke and the speaker had been appointed a committee to take it up.

Mr. Wallace went on to describe in detail the operations of the Marketing Association, step by step, in the handling of eggs and poultry. They could handle eggs and live poultry more cheaply than the Provincial Egg and Poultry Department could, and were doing a business of $800 per week. The figures of the three cars they had shipped so far were as follows:—

Car	Cases	Dozens	Price	Average price Dozen
1	456	13680	$2770.20	20¼¢
2	448	13440	$2806.80	20¾¢
3	458	13740	$3071.00	22½¢

Beside this they had sold in April 74 crates to local merchants and 91 in May. A few cases had been sent to Edmonton. They had on hand seven cases of Extras, 99 cases of Firsts, 55 of Seconds, and 29 to be candled. Mr. Wallace wound up with a fine peroration, which was, for him, quite surprisingly socialistic in tone.

Constitutional Question

The next order of business was the ratification of the draft constitution submitted by the Executive committee. This was passed just as it stood except for one clause, which led to a long debate. The President fought strenuously for the clause as it stood, limiting membership in the League to associations modelled on the Rochdale Plan. Messrs. Wallace and Sears pressed strongly for the deletion of this clause and the substitution of one which would open the door to producing co-operators as well as consumers, by admitting those based on the Saskatoon plan. Eventually the substitute clause carried.

Co-operative Union of Canada

A strong case for the affiliation of local associations with the Co-operative Union of Canada was made out by Mr. W. Halsall, of Killam. He told how the Union was founded fifteen years ago by Mr. Geo. Keen, now the secretary, and how Keen, "the Canadian George Jacob Holyoake," had built it up into a very valuable organization for the pooling of wisdom and experience. The associations which were affiliated to it were almost invariably the most successful. He spoke of membership in the Union as a sort of partial insurance against failure through inexperience.

Officers

Last year's officers were re-elected en bloc. They are as follows:—

Hon. President—Geo. Keen.
President—A. Litt, Bentley.
Vice-President—Mr. Freeman, Wetaskiwin.
Secretary-Treasurer — T. Swindlehurst, Edgerton.
Committee—Messrs. Halsall, Killam; A. P. Moan, Wetaskiwin; R. M. McCool, Crossfield; H. C. Beckner, Carstairs, and H. W. Molyneaux, Calgary.

Resolutions

A resolution was passed instructing the directorate to co-operate with the U.F.A. central office and the Canadian Council of Agriculture in protesting against the recent increase in freight rates.

Another resolution was one favoring and advocating true co-operative principles in dealing with employees in the matter of labor conditions, working hours, and a weekly half-day closing.

A third resolution was one of thanks to the City Council for the use of the city hall, and to the press for their interest. Inasmuch as the writer was the only reporter present, modesty precludes any mention of the numerous nice things that were said in this connection.

Next year's convention will be held at Red Deer on Wednesday, June 3.

PROF. BOYLE'S INVENTION RIDS SEA OF TERRORS

Charlottetown, P.E.I., June 3.—Dr. W. R. Boyle, Edmonton, dean of the faculty of applied science in the University of Alberta, who is engaged in experimental work with the object of preventing shipping disasters from collision with ice, expressed satisfaction with the results of recent tests, when the Canadian government steamer Montcalm, on which he and his assistant, Charles Reid, Calgary, are passengers, arrived here.

Dr. Boyle, who believes the problem of under-water signalling has been solved, employs an electrical device, the details of which are secret, for the detection of other ships, icebergs, or any other object that might be a menace to a ship. He worked on his invention in England for a number of years, but this is the first time he has sought to apply it in Canada.

Since starting out this spring Dr. Boyle has covered a large part of the Gulf of St. Lawrence, and before completing his labors he plans to go to the Straits of Belle Isle to make a special study of icebergs. The work is being financed by the Canadian Council of Scientific Research, to which Dr. Boyle will submit his report when present experiments are completed.

Dr. Boyle left Edmonton some weeks ago for an extensive summer's program on the Atlantic coast and in the Gulf of St. Lawrence along the lines indicated in the above dispatch and more fully described in the Journal at the time. The experiments that he and his assistant are conducting in under-water signalling, tide measurement and such like, are a continuation, under actual sea-coast conditions, of research work that Dr. Boyle has been doing in the University of Alberta laboratories for several years past, with a practical application of some of them overseas during the great war. As briefly summarized by himself in his interview with the Journal, the general purpose and objective of his season's work in the east in which he hopes to demonstrate the practicability of his new device, will be to rid navigation on the deep seas of the dangers that have heretofore attended it in the way of collisions with ice, land, or other ships.

DR. MICHAEL CLARK WILL ISSUE MONTHLY PAPER, THE "FREEMAN"

With Dr. Michael Clark of Olds, as the chief contributor, a new monthly publication will make its first appearance in Calgary this month, under the name of "The Canadian Freeman."

This announcement was made by the business agent of Dr. Clark, founder of the new journal, on Tuesday. It was stated that Dr. Clark's articles would be a feature of the publication. He proposes to write on a number of subjects with a freedom that will be in keeping with the name of the new paper.

It is announced that the Freeman will be politically non-partisan and its columns will be open for contributions in the form of political opinions of all shades, from responsible sources. Dr. Clark aims to make the new paper a political forum, with contributions from the leading men in the different parties in Canadian public life.

CANADA LEADS STATES IN EXPORT OF WHEAT

Ottawa, June 3.—Canada is beating the States very badly in the wheat export field. Reports that have come across the line showing the comparative cost of growing wheat in the two countries have indicated that so far as the export portion of the grain trade is concerned, American growers have pretty well thrown up their hands. Recent United States trade figures show this to be true. During the ten months ending April, Canada increased its exports of wheat by about 15 percent. over those for the same months of the preceding year. During the same months the United States wheat exports fell off to the extent of over 45 percent. as compared with those for the same months of the preceding year.

During the last 10 months Canada exported over three times as much wheat as did the United States, the figures being 223,000,000 and 71,000,000 bushels respectively. Immigration experts, though disappointed just now at the very light immigration from the United States, still think that in time Canada's great advantage over the republic as a wheat grower will become so manifest to the American farmers that they will again trek across the border in large numbers.

SUDDEN DEATH OF YALE M. P.

Ottawa, June 4.—John A. MacKelvie, member of parliament for Yale, B.C., died of heart disease at his apartment in the Alexander hotel here at 1 a.m. today. He was in his 59th year. Mr. MacKelvie, after attending the night session of the house, retired at 10.30 p.m., complaining of pains over his heart. About 1 o'clock Mrs. MacKelvie was awakened by her husband, who was in great distress. She roused Senator Schafner, M.D., who lived in an adjoining apartment, and, although he rushed to the bedside of the stricken man, it was too late. He had died in his bed during the interval. Mr. MacKelvie was born in St. John, N.B., and since 1893 was editor of the Vernon, B.C., News.

Here and There

It is estimated that over 50,000 acres were sown with corn in Alberta in 1923, as compared with only 1,000 acres in 1919. This is a good indication of how rapidly corn culture is increasing in Western Canada in connection with mixed farming operations.

All previous records of Canadian freight transportation were broken when a solid train-load of automobiles reached the Pacific Coast from Windsor, Ont., over Canadian Pacific lines recently. The distance of 2,982 miles was covered in seven days, or exactly 169 hours and 32 minutes. The train, which consisted of 40 cars, each containing 6 Ford automobiles, was more than a third of a mile long and was handled on practically passenger schedule.

The splendidly sound position of the Canadian Pacific Railway is well shown in the annual report for the fiscal year ended December 31st, 1923, which has just been issued. The gross earnings of the Company for the year were $195,837,089.61, the working expenses $158,358,-079.54, and the net earnings, $37,-479,010.07.

A large party of Scottish farmers, ploughmen, farm workers and their families, is expected to arrive at Montreal in June. The party, which will sail on the Canadian Pacific steamer "Marburn," will be conducted by the Scottish representative of the Canadian Pacific Department of Colonization and Development.

Alberta has maintained an average yield of spring wheat of 19¼ bushels per acre over a period of twenty-six years, according to a chart prepared by the Department of Agriculture. In addition, winter wheat has averaged over the same period 20.19 bushels; oats, 35.79 bushels; barley, 26.10 bushels; rye, 18.84 bushels and flax, 8.71 bushels.

A feature of the annual banquet and convention of the officials of the Canadian Pacific Railway, which were held at Quebec on March 22nd, was the representation, in the banquetting hall, of a full-sized locomotive of the latest type emerging from a tunnel. Built of wood at Angus Shops, Montreal, it was in all respects perfect. At a pre-arranged moment, it emitted steam and smoke, the bell rang and the whistle blew, while the headlight became a moving picture projector.

Indications of a great season in immigration are seen by Canadian Pacific officials in the arrival at St. John, N.B., during the week-end of March 29-30, of 2,411 third-class passengers, aboard the Company's steamers Montcalm and Metagama. The Montcalm had on board 1,584 of these passengers, which constitutes a record for the season.

Out of a total production of 10,730,150 pounds of creamery butter, in 1923, Manitoba exported 3,863,264 pounds, valued at $1,513,-169. Shipments were made to Great Britain, New York, Chicago and Montreal. In addition, about 200,000 pounds of butter fat were shipped to the United States.

In a speech to the higher officers of the Canadian Pacific Railway on the occasion of the recent convention at Quebec, Mr. E. W. Beatty, President, pointed out that 60 per cent. of the company's stock is held in Great Britain, 21 per cent. in Canada and 20 per cent. in the United States. It is, therefore, a corporation absolutely controlled within the British Empire and, he added, that control is being appreciably strengthened as the years go on.

Quebec's new goldfield in Rouyn township, north of the Des Quinze branch of the Canadian Pacific from Mattawa, is to be made accessible by an aeroplane service to be inaugurated by the Laurentide Air Service Limited, on May 18th. Prospectors, tourists and supplies will be able to cross the fifty mile gap between the end of steel and the goldfields, which formerly required two days to cover, in less than an hour in the flying boats to be used in the service.

THE FAILURE OF TRADE LEADERS

There is no doubt as to the severe depression in trade all over the world in the last few years. It is now just beginning to show signs of improvement. Numbers of speakers and writers have declared that the present situation is precisely similar to that which followed the Seven Years War and the Napoleonic Wars in Europe, and the Civil War in the United States. That being so, it seems permissible to ask what steps were taken beforehand to provide against the depression, which clearly might have been expected. Did the great leaders of trade and industry in the world realize during the war that there was likely to be a very severe depression after it. If so, did they warn the different nations to which they belonged and the world in general of what was coming? If not, why not?

When one recalls all that has been said and written and done since the war on the subject of trade, the prevailing impression is one of confusion, uncertainty, mistaken prophecies, and complete failure to grasp and deal with the difficulties of the situation. Hardly anybody even professes to understand fully, much less to be able to solve the problem of the various money exchanges in the world, which have fluctuated wildly even in countries not subject to political upheavals. It can hardly be that all the difficulties have been due to the selfishness and folly of the labour people. Even if labour had been willing to put itself wholly in the hands of the financiers and employers, only a very sanguine person could believe that labour would have derived great benefit thereby. The quarrels between labour and capital have certainly been deplorable and have caused much loss, but it is surely impossible to say that the faults have been all on one side.

Probably never before in the history of the world has communication between the different parts of the world been so swift and constant, or the trade of one country so interlocked with that of others. The opportunities for consultation and co-operation between leaders of industry and finance all over the world are excellent. Yet there has been little or no sign so far as the general mass of the peoples are concerned, of either consultation or co-operation, or of guidance resulting therefrom.

It is not only in the world of great international finance and industry that there has been this failure. Leaders of individual countries, of dominions, states, provinces and cities seem to have failed equally. The individual man unsettled and upset by the war, and looking for the best means of getting back to sound profitable work again, has had very little guidance from either governments or private organizations. Fragments of policies have been developed, wise enough in themselves, but quite insufficient to deal with the whole problem. The Soldier Settlement policy of Canada is a good instance of this. It was entirely sound to get men onto the land, of which we have so much needing breaking and cultivation, but there was too little guidance given to those men once on the land, and apparently neither realization of nor attempt to deal with the fact that the ex-soldiers were being established on the land under temporary conditions of high inflation of prices, thus exposing them inevitably to a crushing burden as soon as the boom broke.

There is something wholly wrong in this. It points to one of two things. Either the great leaders of finance and industry in the world are greatly lacking in anticipation and grasp of world conditions, or they are so selfish and jealous of one another that they cannot or will not co-operate among themselves and with other classes to promote the general happiness and prosperity of the world.

There is a great deal said about the short-sighted policy of labour and the stupidity of the farmers in business methods. It seems about time to ask whether there is not just as much folly and stupidity amongst the so-called leaders of industry. The only difference between them and the labour men or the farmers is that the big men seem able to make other people bear the brunt of their mistakes.

FOOT AND MOUTH DISEASE

According to the latest information from California, the authorities there are getting control of the foot and mouth disease which has been causing such heavy losses, direct and indirect, in the State. The epidemic has involved the destruction of large numbers of valuable livestock. One herd of Holstein cattle which had to be destroyed was valued at $470,000.00. It has also rendered necessary all sorts of troublesome restrictions on travelling in the State by way of disinfection. It is natural that in Western Canada there should be no little anxiety lest the disease should spread here by way of Oregon or through imported stock, and the measures of prevention of importation which have been taken by the Canadian authorities cannot be found fault with in respect of severity. It is particularly necessary at the present time to keep the disease out of Canada because of the still recent removal of the embargo on the importation of Canadian livestock to Great Britain. The ostensible reason of that embargo was always the suspicion on the part of the British authorities that Canadian cattle were not free from the disease. Although there has always been a suspicion that to some extent at any rate the real reason has been a desire to protect Irish stock breeders, still nothing could be worse than for our herds to become infected now. Great Britain itself has just had a severe attack of the disease, causing great loss there also. It has been pointed out that if a fraction of the money paid out in compensation for stock destroyed by government order had been spent in research investigation into the disease, it might well have been that a method of prevention or protection might have been found which would have averted these recent outbreaks. It is to be hoped that in the light of these expensive lessons, investigation will be vigorously pursued in order to find such protective method. Agriculture has quite enough difficulties to face at the present time in the form of low prices and high expenses, without having to bear the additional burden of such losses as are inflicted when this disease gains a footing in any country. It may perhaps just be noticed that in the case of the Californian outbreak, it is actually rumoured in that State that to some extent the outbreak was exaggerated and unreal symptoms of it announced as discovered through the action or influence of large stock breeders, who wished to get rid of competitors by having their herds destroyed and very inadequate compensation paid. This seems an extraordinary and almost incredible suggestion, indicative of the atmosphere of universal suspicion which prevails at present in the business world of the United States. It would certainly need much more than rumours to justify any belief in the story or induce our authorities to relax their precautionary measures.

THE SOLDIERS' BONUS ACT IN THE STATES

The United States Congress has passed the Soldiers' Bonus Bill after a prolonged agitation and political fight. On its first passage it was vetoed by President Coolidge, but it was passed a second time over his veto and is now law. The Act provides for cash payments for men who served for a short time in the war and for endowment insurance policies for those who served for longer periods, the maximum amount payable under such policies being $1,000.00. The amounts payable are calculated on a basis of $1.00 a day for home service and $1.25 a day for service overseas.

In view of the now more or less abandoned agitation in Canada for a soldiers' bonus, the Act should be viewed with considerable interest. It will impose a burden of some weight on the United States budget for years to come. In fact, if the scandalous history of civil war pensions is repeated, the burden will be of indefinite duration. The Act has been strongly opposed by the financial interests in the States and supported by such fulsomened agencies as the Hearst newspapers, which have championed the cause of the veterans as loudly as they championed the cause of the pro-Germans during the early days of the war.

While there can be no doubt as to the magnitude of the claim on their country of the men who fought in the war, whether in the United States or Canada or elsewhere, it is very doubtful if such an Act as this is the best way to discharge the claim. If it had been passed in Canada it would have depreciated the Canadian currency and have been of doubtful benefit to the ex-soldiers, by most of whom it is to be feared it would have been speedily spent with none too much of productive results. In fact, the very Hearst papers which are rejoicing over the passage of the Bonus Act in the States, speak of one of its anticipated benefits as being the putting into circulation of large sums of money, from which it may be inferred that the soldiers will be expected to spend their cash freely. Loans apparently will be obtainable on the security of the endowment policies, and it is possible to anticipate some distinctly profitable transactions by financial Shylocks of far-seeing vision with impecunious and impetuous—one might even say thirsty—ex-soldiers.

From the nature of the agitation in the States it is to be feared that political reasons of none too lofty a character have had more to do with the passage of this Act, nearly six years after the close of the war, than genuine gratitude to the soldiers. On the whole we believe that the Canadian government's method of dealing with the ex-soldiers has been the better and sounder one, though nothing excuses the attitude of the present administration towards questions of pensions and physical disabilities. That is and has been a most discreditable one, reflecting the concealed but none the less complete lack of enthusiasm on the part of the Liberal government for the war, the men who fought in it, and the Empire.

THE WHEAT BOARD FUNDS

A quite large sum of money is in the hands of the government, representing the balance the Wheat Board operations left. They do not seem to know what to do with that balance.

We should like to see the sum divided into three equal portions, and one portion given to the Universities of Alberta, Saskatchewan and Manitoba to be used by them solely for research work in agricultural, and more particularly grain growing, problems.

The money theoretically belongs to those who sent wheat through the Board. It is now impossible to divide it fairly among them, and, if it were possible, the sum for each man would be negligible.

On the other hand, the sum would pay for a great deal of research, and there would without possible doubt be a great and early benefit to every grain grower in the west.

EDITORIAL NOTES

Dr. Clark is reported to be about to start a new paper to be called "The Canadian Freeman." The first issue will be anxiously awaited by many people and no doubt apprehensively awaited by some governments.

It is a pity that the editor of the Albertan could not be induced to go to France as premier so that the country would be properly run. Clemenceau, Poincare and others have been such miserable failures.

The Methodist conference blindly, and against the wishes of the most prominent of their members, passed a resolution condemning the Cadet movement. The Scout movement is always getting similar attacks. No Scout or Cadet ever caused a war. Neither movement is in any sense a military one. But if this country is ever in another war, which God forbid, the young men will be compelled to enlist, and they will be less fitted physically and morally for the hardships they must undergo.

We take off our hats to the Edmonton Grads. For quietly and without fuss artistically trimming every team sent against them, they are certainly in a class by themselves. Let the eagle scream.

H. J. SNELL AGAIN HEADS OPTOMETRISTS

Fourth Consecutive Term as President

H. J. Snell, of Red Deer, was re-elected president of the Alberta Optometric association, at the closing session of the fourth annual convention held in the Palliser hotel on Wednesday. Other officers elected were: First vice-president, S. A. Bartle, Calgary; second vice-president A. M. Anderson, Calgary; third vice-president, H. D. Powers, Bassano; fourth vice-president, F. B. Souch, Medicine Hat; fifth vice-president, J. E. Hopkins, Calgary; secretary-treasurer, H. G. Willis, Edmonton; registrar, B. L. Jamieson, Calgary. Personnel of board of examiners: President (ex-officio): Dr. H. M. Tory, University of Alberta; secretary (ex-officio); Registrar Cecil Race, University of Alberta; president, A. J. Harrison, Calgary; secretary, H. G. Willis, Edmonton. Members: F. H. Wilkins, Lethbridge; J. E. S. McClung, Edmonton; J. Erlanger, Edmonton; Dr. H. J. McLeod, faculty of the University of Alberta; Dr. J. Ower, of the faculty, University of Alberta; Dr. A. W. Downs, of the faculty, University of Alberta.

The convention, which was in session all day, concluded with a banquet held in the Palliser hotel at 6.30 o'clock. After the banquet, the delegates were addressed by Colonel J. N. Gunn, D.S.O., M.R.C.S., England, on "Ocular Diseases Optometrists Should Recognize." Colonel Dunn's address was of a technical nature and proved very interesting to the optometrists present.

Cause of Accidents

A greater part of the afternoon was taken up with a discussion of motor accidents caused by bad eyesight. Excerpts were read from several journals and newspapers to the effect that coroner's juries had found that a percentage of fatal automobile accidents had been caused by either the driver of the car or the person who was killed suffering from bad eyesight.

NOTICE

IN THE MATTER of the estate of John Edward Leukunnaa, late of Eckville, Alberta, Farmer.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named John Edward Leukunnaa, who died on the 6th day of May, A. D. 1924, are requested to file with the undersigned by the first day of August, A. D. 1924, a full statement, duly verified, of their claims and of any securities held by them, and that after that date the Administratrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or of which notice has been brought to her knowledge.

DATED this third day of June, A.D. 1924.

CROSBY & COLPITTS,
Solicitors for the Administratrix,
Red Deer and Eckville, Alberta.

June 4, 2w.

OUR SYLVAN LAKE CORRESPONDENT HAS A COMPLAINT

Say, Mr. Editor, do you know that Sylvan Lake is nearly out of the world?

No, why is that?

Because it takes so long to get a telegram delivered there. The other day there was a dispatch sent me from Calgary, dated June 5th, 1924, and on June 6th, same year, it was delivered to me at about one o'clock, having been marked 10-12 on the dispatch—26 or 27 hours to get to Sylvan Lake from Calgary, so it must be a good ways off.

Another case just lately: A man's wife was coming from Vancouver with her two children, and when she got to Jasper, she sent a dispatch to her husband at the Lake to meet her at Red Deer. She got off the train—no hubby, no acquaintances, and didn't know what to do, so she had to hunt up a policeman and ask him, and he got a taxi and sent her to Sylvan Lake. She found her husband all right, and the next day about one o'clock the telegram came strolling in. She must have thought that she was like the darkey that stole a chicken and got started on the road, and a man shot at him. Another man asked him if he ran. Lordy, the darkey said, man, I passed dat bullet twice before it stopped. This lady must have passed that telegram two or three times before it got there.

NOTICE TO FARMERS

Having secured from D. W. McLennan, of Calgary, his imported stallion, Gartley Heritor (15328), Sire Everlasting; Dam Gartley Heiress; I will stand him for public service for the season, 1924, at my farm, 1½ miles east of Red Deer, every day except Monday and Friday.

The service fee will be $12 at the farm or $15 when travelled. This horse is considered by leading horsemen to be one of the best breeding horses in the province. Now looks like a good time to start raising a foal or two.

J. CRUICKSHANK.

The Toy Canoe

THE TOYMAKER AND HIS CARVING IS A PLANT OF VILLAGE GROWTH.

When at Christmas time we turn into a toy store or in a large department store toward the toy counter, we are apt to see in our minds' eye only the toy and the child. Some of us see and feel, ourselves. And in spirit go back to the days when toys were to us, as they are to children, the embodiment of the imagination. The tangible form of our dreams! Sight of the toys, the touch of them, is a magic wand restoring our lost childhood. And so we really end in buying the thing that we like, the thing that takes our fancy. That is, if we have a choice, and are not forced by circumstances of limited stock or limited means to take what we can get.

But the toy reaches further back than this. Behind each is the toymaker. The man or woman whose deft fingers shape the thing of art and life out of unpromising and wholly unsuggestive raw material. Thus Canada has men, art-craftsmen, who see in the forest-log latent figures of saints, windmills, weather-vanes, miniature canoes, legends of Mother Hubbard.

Take the part-French, part-Indian, maker of the toy-canoe that so delights the hearts of little boys even when for lack of lake, river or sea in their neighborhood they are forced to sail it in the bath-tub, or just carry it to bed clasped in chubby arms, at night, as a sort of galleon whereon to sail away to the land of dreams, is there not in the canoe, a spirit of race? The French trait of "sculpture," as the wood-carver calls himself down in Quebec, and the elemental knowledge and association of the canoe that in the Indian reaches back to prehistoric days in this great stretch of country that is Canada.

It would be difficult to say which side of him aids the other more, but it is true that in combination, he is something more of an artist than the United States or Mexico to the South, without such combination, can boast. A born toy-maker. Someone who gets into the toy that prescient something which is of the spirit and of life, and which makes it art-products rather than a mere thing of wood. So fine in its lines that it is no mere substitute but a miniature of the larger canoe . . . the boat of a race. No less than the Viking ship or the gondola is the boat of a race and a people.

Did we see the artistry and human interest, not to speak of the nationality, the true Canadianism in such toys, we would select them and put them more in the hands of children than we do. Even in giving the purely mechanical toy to the child the youngster not having arrived at the age of mechanics proceeds to see the suggestion, the romance, the story, the association. As to wit the "chu-chu" train, rather than the mechanism, the parts, which are far too small to interest the mind at that stage.

And when you happen upon the canoe-carver at work out-of-doors in one of those many quaint and historic villages along the St. Lawrence between Montreal and Quebec, his own child seated on the logs, one of the rough canoes in his little hand, how envious it makes you feel for the city child! For the toymaker and his carving is a plant of village growth. The big log still, as it were, touches the forest. And all these things, too, are in the tiny canoe over which the mind of childhood dreams.—Victoria Hayward.

SPECIALS

WOMEN'S LIBERAL CLUB

Mrs. Jas. Berry Gives Paper on "Why I Am a Liberal"

Accepting the invitation to all women interested in Liberalism to meet with them at the home of Mrs. J. J. Gaetz, the Red Deer Liberal Women's Club welcomed some twenty-five women who listened appreciatively to a splendid paper on "Liberalism," given by Mrs. James Berry.

"Liberalism, if worthwhile, must be taken as a creed. We must belong to, work, vote for the Liberal party because Liberalism means liberty, freedom, government of the people by and for them, and not by any group or interest. Therefore we must work and fight for the Liberal party and support it financially if it, is to prevail. Liberalism does not believe in a government by aristocracy of birth or wealth, but in government by aristocracy of intelligence, of energy, of character.

In this work for the fulfillment of these great ends it calls to men and women of all classes, creeds and occupations. It has been the glory of Liberalism in the past that it has thus been able to transcend the boundary of class limitation, and to call to its service men of the good will of all and every class alike in a fellowship, wide as human life and deep as human need.

It is probable at this time, more than in any previous period of our history, men and women are asking themselves to what party they should attach themselves. The best rallying ground for men and women who are at once moderate and progressive is the Liberal party. It is attacked by extremists because of its moderation. Protectionists attack it as a free trade party: free traders who would go the whole way, say the Liberal party does not go far enough. It believes in unity and freedom. In regard to economic questions, it believes in free discussion tending toward orderly progress.

Such a party is the natural home of sober, thoughtful people who are in doubt as to their future political affiliations.

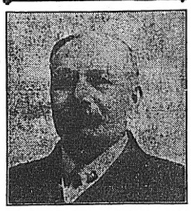
The war is over, and the mood and temper of war is giving place to the mood and temper of peace, which are favorable to the growth of constructive Liberalism. Canada needs peace and unity, construction and production. More and more those who recognize these needs will rally round the Liberal party."

Miss Rhoda Brown gave a piano solo with great expression, and graciously responded to several encores.

Mrs. Broughton gave a clever paper on "Group Government," and showed how it differs from our own responsible government. "Responsible government means the administration of public affairs by ministers who are responsible to Parliament,and active in power only so long as they have the support of the majority of the House of Commons, and must resign whenever the majority is against them.

One of the advantages of this system is the flexibility. Democracy can only find true expression—responsible government and under a flexible constitution. Group government is really a revolt against a rigid constitution, and the cry for group government first appeared in the United States of America. The reason is clear. The American constitution is rigid. Men in Canada have cried the old parties

Health Restored by The Fruit Treatment



Fourteen years ago, Mr. James S. Delgaty, of Gilbert Plains, Man., was a nervous wreck. His system was shattered by Nervous Prostration, and he was reduced in weight from 170 to 115 pounds.

He wrote on May 15th, 1917, "Every medicine I tried proved useless until a friend induced me to take 'Fruit-a-tives.' I began to mend at once. After using this fruit medicine for three months, I was back to normal. I have never had such good health as I have enjoyed the past six years. We are never without a box of 'Fruit-a-tives' in the house."

Writing again on September 27th, 1923, Mr. Delgaty says, "I stand by my letter to you in 1917—I still recommend 'Fruit-a-tives.'"

"Fruit-a-tives" is a complete fruit treatment—being made of the juices of fresh ripe fruits and tonics.

25c. and 50c. a box—6 for $2.50—at druggists or sent postpaid by Fruit-a-tives Limited, Ottawa.

are gone. They are ineffective, and group government is the only way out. Group government was the protest against a rigid constitution: it has no basis against a flexible constitution such as we have in Canada. If group government prevails, ill considered legislation of all sorts will be brought up, and with numerous ineffective laws on the Statute Book, the people would feel an utter disrespect for the law. There are doubtless many evils of the two-party system, or rather in the abuse of that system, but it is absolutely necessary under our system to insure steady and continuous government, and also for criticism of government measures which is necessary for the right working of democracy."

After some discussion, and questions asked, the meeting adjourned to enjoy a social cup of tea with the hostess, Mrs. J. J. Gaetz.

PONOKA 12 RED DEER 11

In a Central Alberta Baseball League game played at Ponoka June 3, Red Deer went down to defeat in a swat-fest, 12-11. The game was played in a blinding dust storm that made good ball impossible. Although hitting Ditburner's curves for 16 safeties, the locals made nine errors which lost them the decision. Ponoka gleaned 12 safties off the local hurlers, but got away with only three errors.

Red Deer took the lead in the second inning. Nelson hit for three sacks; Osterland drove the next over the fence for a home run. George got on when Mike Bures fumbled his grounder at short. Bill Day hit a safety, and three runs tallied thus.

Ponoka didn't score till the fourth. Watson drove out a 2-bagger, Lewis a safety. Weber got tangled up with Hambly's grounder; Nelson repeated on Stoddart's line drive. It remained for Vern Longman's 2-bagger to drive run number four for Ponoka over the plate.

In the fifth frame, although Lewis was the only Ponoka batter to hit safely, yet three errors and two passed balls scored four more Ponoka men.

Smith relieved Osterland on the mound for Red Deer in the sixth inning. Although touched for two safties, Smith got away clean in this frame. A walk, two safties and a 2-bagger boosted Red Deer three more runs at this point. The score was then 8-6 in favor of Ponoka, and our boys were fighting gamely. McLaren entertained one of Percy's speed balls on the end of his finger in this frame. The crippled digit was bound up securely and McLaren gamely continued behind the bat.

In the unlucky seventh, Wachlin's 3-bagger followed by two errors and a single scored three more for Ponoka. Heavy hitting added another in the eighth.

Red Deer tried frantically to even up but the best they could do was one each in the seventh and eighth, and three in the ninth. The tieing runner, Malcolm, perched on third in this inning, after hitting a 2-bagger and advancing on Weber's deep drive to centre. McLaren then had the chance to become the hero of the day, but failed to connect, and left Howie stranded a mile from home.

The score by innings:—

Red Deer	0 3 0 0 0 3 1 1 3—11
Ponoka	0 0 0 4 4 0 3 1 x—12

The Box Score

Red Deer	AB	R	H	PO	A	E
Malcolm, 2b	6	1	2	3	4	1
Weber, ss	6	0	1	0	0	1
McLaren, c	6	0	2	8	1	0

Ditburner, p	4	1	1	0	3	0
	43	12	12	27	9	3

Summary

Leading batters—For Red Deer—Nelson, 3 hits in 5 times at bat; Smith, 2 hits in 3 times at bat. For Ponoka—Lewis, 3 hits in 5 times at bat.

Home Run—Osterland.

Three-base hits—Wachlin, 2, off Smith; Nelson off Ditburner.

Two-base hits—Malcolm 2, McLaren, Langley, Smith; Watson, Hambley, V. Longman.

Struck out—By Ditburner, 11 in nine innings; by Osterland 8 in five innings; by Smith 0 in three innings.

Earned runs—Ponoka 2, Red Deer 7.

Left on bases—Ponoka 7, Red Deer 9.

Stolen bases—Melcolm 1, McLaren 1, Ponoka 0.

Sacrifice hits—M. Bures.

Passed balls—Red Deer 5.

Umpires—Red Deer, Hofford; Ponoka, Richmond.

Attendance 500; time of game, two hours; official scorer, J. B. Long.

The second game was an exhibition one, and resulted in favor of Red Deer, 14 to 6. Mayberry and Nelson were the Red Deer battery, and Watson, Hambly and Stoddart did the duty for Ponoka. Ponoka gathered five hits off Mayberry, while Red Deer got seven from Watson and three from Hambly. Red Deer had seven errors and Ponoka nine.

C.S.E.T. ATHLETIC CONTEST

The National C.S.E.T. athletic contest was held on the school grounds on Tuesday morning. Twin Squares were present from Clive, Lacombe and Red Deer, and the results were as follows:

Clive—	Total points
Guy Randall	405
Clarence Johnson	528
Howard Jeglum	490
Average	1423 / 474

M.D. OF PINE LAKE

The regular meeting of the M.D. of Pine Lake was held in the secretary's office on Monday, June 2. All Councillors were present, with Reeve Fiske in the chair.

Mr. Kenneth Bowman was appointed auditor for 1924 at a salary of $150.

The second resolution of the Sylvan Lake Citizens' Committee was endorsed.

Bylaws prohibiting cattle running at large in Divisions 3 and 4 were given their first and second reading.

Mr. E. Ainsworth was present and informed the meeting that the Government road grants this year would be as follows: Innisfail $585, Red Deer $1109.

The Inspector under the Mothers' Allowance Act presented an application from Mrs. Constance Mary Darling, and stated that he was prepared to recommend an allowance of $40 per month. The recommendation was approved.

The following wages will be paid for work this year: Man and team, 50¢ per hour; man and two teams, 75¢ per hour; man only, 30¢ per hour; foreman 40¢ per hour.

Grants were made to the Red Deer Fair of $75, and $25 to Milnerton Fair.

The rate was struck at four mills, the same as for 1923.

CONDOR LADIES' ORANGE LODGE

A number of the ladies of the Condor district met in the Condor Community Hall on the evening of Wednesday, May 28, for the purpose of instituting a Lodge of the Loyal Orange Benevolent Association. The initiation of the candidates was successfully carried out by Sister Donaldson, of Calgary, assisted by Brother and Sister Berney, Sister Leonard and Brother Martin, from Red Deer. After the initiation, the following officers were installed:—

W.M.—Mrs. H. Eastman
D.M.—Mrs. R. Prendergast
R.S.—D. S. Hastie
F.S.—Mrs. L. Reeser
Treas.—Mrs. E. Barton
D. of C.—Mrs. R. MacFaul
Lecturer—J. Negaard
C.—Mrs. L. Barton
O.G.—Edgar Meeres
Guardian—Scott Hastie

Mrs. M. Meeres was elected pianist by acclamation.

It was decided to hold the meetings in the hall on the second and fourth Wednesdays of every month.

CANADIAN PACIFIC
GENERAL CHANGE IN
TRAIN SERVICE
effective SUNDAY, MAY 18th, 1924.

Times for trains at Red Deer will be:

Northbound:

Daily—	Arrive	Leave
No. 521	4:55 a.m.	5:00 a.m.
No. 525	5:40 p.m.	6:45 p.m.
Daily except Sundays—		
No. 523	11:40 a.m.	11:50 a.m.

Southbound:

Daily—		
No. 526	3:25 a.m.	3:30 a.m.
No. 522	10:45 a.m.	10:55 a.m.
Daily except Sundays—		
No. 524	3:30 p.m.	3:35 p.m.

Westbound
Monday, Wednesday, Friday—No. 613, Leave at 13.15.

Eastbound
Tuesday, Thursday, Saturday, No. 614 Arrive at 10.20 a.m.

Trans-Canada Limited, Nos. 7 and 8, all standard sleeping cars, between Montreal, Toronto and Vancouver, will be resumed. First train leaves each of these points on May 18th, 1924.

The Mountaineer, Trains Nos. 13 and 14, between St. Paul and Vancouver, will be resumed. First through train passing Calgary, Westbound, June 4th, and Eastbound June 8th.

For further particulars apply to any Ticket Agent.
J. E. PROCTOR,
District Passenger Agent,
Calgary.

THE CITY RATE CASE

(Continued from first page)

Included in the $50,200.00 shown above as having been fully paid for in cash or services, is the sum of $600.00 allotted to Mr. W. A. Moore as per folio 69 of the minute book which shows that J. C. Moore moved and E. S. Hogg seconded that, having learned that the Manager has only taken credit for $1,200.00 of salary, which has been charged to revenue account, the meeting was of the opinion that the remaining $600.00 should be credited to him and charged to Property, Plant account as a proper and moderate allowance to be made for his services in connection with extensions of the plant and general reconstruction.— This additional remuneration was satisfied by the issue to Mr. W. A. Moore of shares to the full amount of $600.00.

In conversation with Mr. W. A. Moore he informed us that he had recently entered into an arrangement whereby shares now recorded as owned by:—

John T. Moore Estate, 120 shares	
Geo. E. Wishart	37 shares
Wm. Gibb More	244 shares
	401 shares

are to be transferred to him. They are not yet transferred because certain of the outstanding certificates cannot be found.

Capital Expenditure—Rate-Base.

The main account recording capital expenditure is named "Property, Business and Plant Account," and it opens with an entry for the "undescribed asset" of $15,076.35, which is deemed to represent the consideration given for the acquisition of the franchise by the Light Company.

We have analyzed all subsequent expenditure charged to this account, and have made a distribution according to the headings shown in the books. The result shows a total capital expenditure of $187,592.86, and the sale of the telephones to the Government would reduce the capital by $67,273.86, leaving an apparent book value of remaining assets of $120,319.00.

Early in 1920 a sale of the phone assets was made to the Provincial Government for $85,000.00 which sum was duly received and, out of this, a sum of $35,000.00 was paid to Mr. W. A. Moore by way of commission for distribution to himself and others and to cover necessary expenses, legal and otherwise, leaving the net price to the Company $50,000.00. The sale price and commission were approved at an Extraordinary General Meeting on 5th January, 1920.

The book value of the assets transferred as per our distribution was $67,273.86, but the figures arrived at by the Company amounted to $86,159.19, and the excess over $50,000.00, $16,169.19, was charged to depreciation reserve.

We are presenting no figures for capital expenditure later than 30th September, 1923, as all the entries appearing in Property Account subsequent to that date are for repairs and renewals and, as such, have not been included by us in the base-rate figures.

The balance of Property, Business and Plant Account at 30th September, 1923, was $131,433.67, as against our total of $120,319.00, showing an excess book value, in our opinion, of $11,114.67.

This difference is accounted for by erroneous entries passed in 1920, purporting to eliminate from Property Account the book value of the telephone assets sold to the Provincial Government. Some of these entries actually take more out of Property Account in respect of certain of the Telephone capital expenditures than we can find in the books under these headings. We have given effect in the above figures only to such elimination of telephone assets as, in our opinion, can be justified by the previous entries in the books, and by the journal entry made by the competent secretary of the Company in 1920.

Included in our elimination are two items, General Expenses $3,000.00 and Office Expenses $500.00, which are clearly shown in the entry made by Mr. S. G. Peach with, we understand, the concurrence of Mr. W. A. Moore, to represent expenses in connection with the selling of the Telephone assets and which should not, therefore, be allowed to remain in the book value of the Light assets.

The total of our eliminations as shown above is $67,273.85 as against those of the Company's secretary, totalling $65,159.19, a difference of $1,114.67, which accounts for the difference between the ledger balance and the total of our distribution.

Returning to our figure of $120,319, this includes sundry items which should not form part of the rate-base for Light and Power rate purposes.

Telephone Central Building, $4,548.13

This unit of expenditure was sold in 1913 to the estate of Mrs. Annie A. Moore but, instead of being eliminated from Property Account, the sale price was credited to a "Building Fund Reserve." What purpose this latter account was intended to serve we do not know, but it is clear that this expenditure must be deducted before arriving at a light and power base-rate.

Franchise and Rights $10,000.00.

The Company's secretary wrote off one-third of the "original purchase," that being his view of the value of the portion of the undescribed asset attributable to the Telephone share of the intangible assets. What now remains of the original purchase should not, in our view, be included in the rate-base, so we consider it would be unjust to capitalize, as against the consumers, the rights conferred upon the Company by them in their capacity as ratepayers.

Repairs and Renewals $1,350.44.

This figure is made up of Power House Buildings, $266.44, and Power House Plant, $1,083.96, and represents expenditures in 1923, particulars of which are available, and which Mr. W. A. Moore, in response to our enquiries, admitted were straight renewals. We, therefore, propose to exclude these also from the rate-base.

J. T. Moore $25,000.00.

This amount represents the charge to Property Account resulting from the allotment and issue to Mr. J. T. Moore of shares of an equivalent amount for promotion and financial services referred to on page 8 of this report. It is for the Board of Public Utility Commissioners to decide whether any part and, if so, how much, of this should be included in the rate-base. For the present we omit it, but would point out that, should any portion be allowed, consideration should be given to the fact that the allotment to Mr. J. T. Moore was made in 1911 when the Company's plant included the Telephones and a substantial proportion should be allocated to that section of the Company's enterprise, and only the remainder should be attributable to the Light plant.

The total of our disbursements is therefore reduced as follows:

Total as shown above	$120,319.00
Less:	
Telephone, Central Building	$ 4,548.13
Franchise and Rights	10,000.00
Repairs and Renewals	1,350.44
J. T. Moore.....	25,000.00 40,898.57
	$79,420.43

We are unable to say whether or not the amount of $1,350.44 for repairs and renewals covers all of these which have been charged to Capital during the Company's history. We have enquired as to this and have been informed by W. A. Moore that he is not prepared to say that all renewals have been charged to Operating; that renewals may or may not have been charged to Capital. Mr. Moore further stated that some renewals had been charged to Depreciation, but we were unable to find any evidence in support of this latter statement.

Without production and examination of vouchers for all capital expenditure we cannot offer any opinion, and even with vouchers it would border on the impossible to say, at this late date, what was extension and what was renewal. It occurs to us, however that local knowledge may help towards this end, and we give, hereunder, the increases in Capital Account, year by year, in the hope that it may be seen how the figures correspond with known extension of the plant.

For years—		
1904-5-6	41,873.78	
For year—		
1907	42,444.28	
1908	2,528.50	
1909	1,963.54	
1910	4,737.14	
1911	36,418.58	
1912	3,054.74	
1913	15,370.91	
1914	4,414.59	
1915	3,640.79	
1916	417.51	
1917	1,150.84	
1918	14,147.78	
1919	3,356.59	
1920	4,506.60	
1921	6,207.73	
1922	1,736.77	
1923	232.16	$187,592.86
Telephone Assets sold to Alberta Provincial Government, Book Value.....		67,273.86
		$120,319.00

Figures which appear abnormal in the above can be accounted for in some cases. The sum of $36,418.58 in 1911 includes $33,470.00, made up of $23,000.00 to Mr. J. T. Moore and $6,470.99 to Mr. W. A. Moore, as already explained. The amount attributable to extensions is $2,948.58.

Included in $15,370.91 (1913) is $4,124.71 for meters. This does not imply that meters to this amount were purchased in that year. The Company's practice prior to that date had been to record expenditures on meters in a separate account, but, in 1913, the balance was transferred to Property Account. Details of the balance of $15,370.91 will be found in the accompanying schedule of the annual capital expenditure.

The substantial increase in 1916 is attributable to Telephone Line Construction to the extent of $10,841.28 but, as this is now written out, it has no effect on the capitalization of the Light assets.

Should it be established that repairs and renewals have been charged to Capital, a corresponding reduction in the rate-base figure should be made.

Depreciation

This subject has never been approached by the Company in any systematic manner. Some attempt was made in the case of meters, which account was credited with the monthly rentals up to 1923, and on 30th September in that year one year's rentals were charged back and some depreciation, at a rate which we cannot identify, was provided out of Revenue and credited to Meters Account. Then, for a period, no meter depreciation appears to have been charged until 1919 and 1920, when a rate of about 5% was provided in each year, after which meter depreciation is merged in a general allowance of $3,000.00 per annum.

As to general depreciation, we have attached statements showing the entire history of Depreciation Reserve and Contingent Fund, from which it will be seen that Revenue was first charged with $1,500.00 in 1906, which was credited to "Contingent Fund," after which no further reserve was made until 1913, when $20,000.00 was similarly transferred.

In 1919, $15,000.00 was taken out of Contingent Fund and placed in Depreciation Reserve, which now appears for the first time. On the same date $17,000.00 was charged to Revenue and credited to Depreciation Reserve, making the total provision $32,000.00. A year later, on the sale of the Telephones, the alleged loss of $16,159.19 was debited to this account, and, in 1923, a further charge was made of $6,646.50 for shrinkage in value of Merchandise and Power House Stock.

For the past four years an annual sum of $3,000.00 has been charged to General Revenue and credited to Depreciation Reserve, and the balance at credit at this date is $21,044.31, and the Contingent Fund has a further balance of $5,673.36. Mr. W. A. Moore has stated that the Contingent Fund is held to cover possible serious contingencies such as storm or flood, in which case the only provision to cover ordinary Depreciation is the Reserve of $21,044.31.

Having regard to the manner in which this Reserve has been set up, we cannot regard it as having any direct relation to the book values of the assets, and we feel that the whole question of depreciation in this Company becomes much more a question for the engineer than for the accountant. We consider that little light will be available on this question until the present condition and value of the entire plant has been reported upon by a competent engineer.

In response to our enquiries as to obsolescence of plant, Mr. Moore informed us there was a good deal and that the expenditure of new capital would result in considerable reduction of operating costs, particularly with respect to fuel. He made special reference to the existing boilers and to the new boilers, not yet paid for, which are ready for installation when financial difficulties are overcome.

In addition to Property, Business and Plant Account, there are in the books two accounts of a Capital nature. These are:

New power project	$2,888.50
New plant boilers	$5,731.51

The former is made up of:—

Proportion of administrative salary (W. A. Moore)	2,500.00
Expenses east—W. A. Moore	375.00
Maps, linen and tracing paper	13.50
	$2,888.50

(Expenditure 19th January to 30th September, 1923).

The latter arises out of the purchase of new boilers from Babcock and Wilcox Ltd., in 1921. The account does not include the purchase price of the boilers. The items included are:

Time of W. A. Moore and I. J. Trembath re. boilers	$3,000.00
Freight, cartage, etc., on boilers	1,954.32
War Tax	348.17
Hauling	244.50
Wages, etc.	161.47
Telegrams	12.80
Painting	10.25
	$5,731.51

We have not taken either of these expenditures into consideration in connection with the rate-base, nor do we think this should be done until such time as the benefits to be derived from these expenditures are made available to the consumers of light and power in Red Deer.

Revenue and Operating Costs

Attached hereto will be found an abstract of the General Revenue Account of the Company from 1905 to the end of the last completed fiscal year, 30th September, 1923, and a Comparative Statement of Revenue and Expenditure for the three years ended 30th September, 1921, 1922 and 1923 respectively.

The net results of operation since the Company started business are:

Year ended—		
31st Oct., 1905	$ 552.98	
31st Oct., 1906		$ 2,551.46
31st Oct., 1907		21.05
Eleven months—		
30th Sep., 1908		120.87
Year ended—		
30th Sep., 1909		446.41
30th Sep., 1910		1,809.31
30th Sep. 1911		2,981.23
30th Sep., 1912		8,426.13
30th Sep., 1913		15,070.10
30th Sep., 1914		11,414.46
30th Sep., 1915		5,833.63
30th Sep., 1916		7,184.06
30th Sep., 1917		5,573.54
30th Sep., 1918		726.71
30th Sep., 1919		4,379.32
30th Sep., 1920		4,314.09
30th Sep., 1921		4,452.13
30th Sep., 1922		275.39
30th Sep., 1923	194.35	
To Balance	75,231.58	
	$75,978.91	$75,978.91
By Balance		$75,231.58
To Contingent fund	$21,500.00	
To Depreciation fund	29,245.00	
To bad debts.....	8,724.12	
To W. A. Moore	3,500.00	
To J. C. Moore	4,357.29	
To Balance	2,905.17	
	$75,231.58	$75,231.58
By Balance		$ 2,905.17

The balance of General Revenue Account, as shown in the Company's books, is $4,355.61, while we show $3,906.17, the difference consisting of $1,350.44 which we have taken out of Capital in respect of recent repairs and renewals and have added to Operating.

The above figures show how the accumulated surplus has been disposed of. The debit of "W. A. Moore, $8,500.00" results from a resolution of shareholders at their General Meeting of 3rd January, 1920.

At 30th September, 1916, Mr. Moore's Account showed a debit balance of $14,069.92, for which amount he gave a note payable in one year.

At 30th September, 1917, this note was charged back to him, together with $1,055.28 for interest, when he gave a new note for one year for $15,125.20.

At 30th September, 1918, the latter note was transferred from the debit of Bills Receivable to "W. A. Moore, Special Account" and interest to the amount of $2,295.46 was also credited to the latter. This account then stood for another year without addition of interest.

To the ordinary general meeting of shareholders, held 3rd January, 1920, the directors reported that this account had grown over a period of 10 years even apparently everything that could, under any excuse, be so located, was charged to him. Even items of direct expense on Company business appeared in his account and items that should have been otherwise located, etc. The Report further stated that much of this occurred when his salary was quite inadequate and when he had reason to believe that the great bulk of stock, now passed to his father's estate, was his own; that in view of the new standing of the stock in question, the amount of this Special Account was entirely unfair and, after going into same, the Board recommended that the items of interest in respect of same, rebated in the account as shown, be ratified, and that an amount of $8,500.00 be credited also to Mr. Moore's Account.

The balance of the Special Account of $8,729.76, was transferred to the debit of Mr. Moore's ordinary account in September, 1923.

The same Report of Directors also recommended that an amount of $4,367.29 due from J. C. Moore be cancelled, as the amount might have been entirely offset by a legal account, and that Mr. J. C. Moore be asked for a receipt in full of all legal services to date.

Owing to the absence of the ledger pages of Mr. W. A. Moore's Account prior to 1st October, 1915, and Mr. J. C. Moore's Account prior to 1st October, 1916, we are unable to indicate either the nature or the amount of the charges which were written off.

The same Report recommended that the entire amount of the Customers' Account against Mr. E. S. Hogg, $189.30, be wiped out in recognition of valuable services rendered. This writing-off was not effected through the General Revenue Account but by a charge to General Expenses.

The figures for the last three complete years show the Revenue to have been fairly constant, especially when the profit in 1921 on Interior Construction Supplies is taken into account. In 1923 a large charge was made to Depreciation for shrinkage in value of Merchandise, which suggests that the 1921 inventory of Supplies was too high and the profit too big.

When allowance is made for this, there will be very little difference in the total Revenue of the three years.

Our statement shows the Operating cost of the past three years to have been:

	Operating Cost	Operating Result
1921	$42,849.72	$4,452.18 (profit)
1922	46,4879.6	275.39 (profit)
1923	44,9969.68	194.35 (lose)

The operating costs shown above do not include any charges in respect of Reserves for Depreciation or Bad Debts.

It will be noted that the Manager's salary is $7,500.00 a year, and that 1923 operating was charged with the whole amount whereas, in 1921 and 1922, sums of $3,000.00 and $2,500.00 were transferred to the Boilers and New Power Project respectively.

Economies appear to have been effected in the wages of Power House employees, linemen, laborers and office help, the course of this item of expense being downward.

The total wages paid, apart from the Manager's salary, have been:

1920-1921	$18,526.26
1921-1922	14,750.41
1922-1923	13,118.64

The personnel at 30th September, 1923, was as follows:

Chief Engineer
2 Engineers
2 Firemen
Laborer
1 Line Foreman
1 Carpenter
Accountant
Stenographer

With reference to the Manager's salary, on 3rd January, 1920, the shareholders authorized the Directors to pay him a salary not to exceed $10,000 a year, but $7,500 per annum is the highest salary that he has drawn.

Fluctuations are not especially noteworthy in other items, except in the case of Fuel, which is steadily growing larger and must be considered in its relation to the equipment of the plant.

For the past two or three years no charge has been made to Mr. W. A. Moore for current supplied to his home where, we understand, he has sundry electrical appliances. The Company's Accountant informs us that there are no meters installed in the home of Mr. W. A. Moore, Mr. G. W. Smith and Mr. E. S. Hogg, also that Mr. Smith only pays a monthly flat rate of $1.25 and Mr. Hogg a monthly flat rate of $2.50.

Some allowance should be made in the consumption figures for revenue derived from all unmetered services, including those of the Directors.

A copy of the schedule of light and power rates is attached hereto, from which it will be seen that not only do the rates vary according to the consumption but the discounts increase with the size of the bill. We feel strongly that a much simpler basis would be one under which the variation would be limited to the consumption with the discount common to all as an inducement to prompt payment.

Among the 34 power consumers there are many different bases of charge, so many, indeed, that it is very difficult to classify them, and we have requested Mr. Moore to be prepared to give the fullest information as to the consumption under each classification and as to the reasons underlying the different charges, with a view to standardization of method.

The light consumers do not present so many difficulties, as the great majority pay the 20 cent rate and get 5% discount for prompt payment. We have limited the services which qualify for a higher rate of discount. We have taken months in which the load is high, medium and low, thus supplying a more reliable average.

We understand a special rate of charge is made to employees of the Company.

Working Capital

In our view, the maximum working capital required by this Company would be $12,500.00 made up as follows:

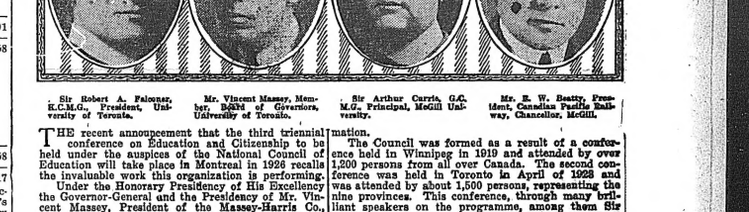
To carry inventories	$10,000.00
To provide for operating expenses pending collection of one month's revenue	2,500.00
	$12,500.00

It should be pointed out that these figures include about $3,000.00 required to carry the inventory of merchandise, at least a portion of which is not a necessary part of a light and power business and the estimate of necessary working capital could be reduced by reason of this.

Amortization: The amount of provision required annually to set aside a fund for the return of the Capital shown to be invested will depend largely on the views of the engineer called upon to advise the Board of Public Utility Commissioners and we leave this point without discussion.

(To be continued next week)

Council of Education Plans Programme



Sir Robert A. Falconer, R.C.M.G., President, University of Toronto.

Mr. Vincent Massey, Member of the Board of Governors, University of Toronto.

Sir Arthur Currie, G.C. M.G., Principal, McGill University.

Mr. E. W. Beatty, President, Canadian Pacific Railway, Chancellor, McGill.

THE recent announcement that the third triennial conference on Education and Citizenship to be held under the auspices of the National Council of Education will take place in Montreal in 1926 recalls the invaluable work this organization is performing.

Under the Honorary Presidency of His Excellency the Governor-General and the Presidency of Mr. Vincent Massey, President of the Massey-Harris Co., Toronto, the Council includes many of Canada's leading citizens, among them Sir Robert A. Falconer, K.C.M.G., President of the University of Toronto; Sir Arthur Currie, G.C.M.G, Principal of McGill University, and Mr. E. W. Beatty, President of the Canadian Pacific Railway. It has as its principles: (1), That education should concern itself with the development of character and should provide a full preparation for life; (2), That education is a spiritual process; (3), That education is imparted by personality—its success or failure rests with the teacher; (4), That education is everybody's business; and (5), That Canada's education must be Canadian in its ideals.

The principal activities of the Council are twofold. The National Lectureship Scheme is a plan under which distinguished men and women—both Canadians and visitors from Great Britain and other countries—are engaged to speak on education (broadly interpreted) throughout Canada. The Bureau provides an organization for the exchange of information between the Provincial departments of education, for the reception and diffusion of ideas from outside the Dominion and for dispensing data concerning education in Canada to the outside world. Until the Council established this bureau, Canadian educational authorities were dependent upon the American Bureau of Education at Washington for all educational information.

The Council was formed as a result of a conference held in Winnipeg in 1919 and attended by over 1,200 persons from all over Canada. The second conference was held in Toronto in April of 1923 and was attended by about 1,500 persons, representing the nine provinces. This conference, through many brilliant speakers on the programme, among them Sir Michael Sadler, Sir Henry Newbolt, Lord Robert Cecil and Sir Robert and Lady Baden-Powell, sought to set forth the Council's conception of the role of Education as a citizen builder.

The plans for this third conference now pending were laid at a meeting held in Montreal, presided over by Sir Arthur Currie, in the absence of the Chairman, and attended by several of the leading officers of the Council in the persons of Mr. Vincent Massey, President; Mr. S. B. Gundy, Chairman of the Finance Committee, and Major F. J. Ney, Executive Secretary.

At present, the Council is engaged in preparing a programme for the second triennial period. It has secured as Educational Secretary Professor J. A. Dale, of the Social Service Department of the University of Toronto, whose duties will include the editorship of a series of small volumes on educational problems. The success of the National Lectureship Scheme inaugurated last year, which established important contact with the leading minds of Great Britain, will be followed up, beginning in September, by contributions from Dr. Finley, Editor of the New York Times and once a Commissioner of Education for the State of New York, from the Stratford-on-Avon Shakespeare Fellowship Players, under the direction of Mr. Bridges Adams, and from a number of other distinguished speakers.

Thirty Years of Dunlop

Experience Certainly Tells in Making Tires

You cannot go astray in your tire purchases if you buy this kind of experience:—

1894-1924

DUNLOP TIRES

30 Years in Canada

Many a man is driving a motor today who was not born when Dunlop Tires first appeared on the highways of Canada.

Thirty years is a long time in the Tire business. It is the very beginning of the industry. 1888 saw the world's first pneumatic tire; 1894 saw the industry taking hold in Canada.

Doesn't it stand to reason, in view of the above facts, that we must be better equipped and better qualified to serve the exacting demands of Tire users?

Knowing the past of the Tire Industry so well, we must have pretty good intuition regarding not only the needs of the present, but the possibilities of the future.

Money cannot Buy More—Usage cannot Demand More—than what you get with present-day Dunlop Tires.

There's a Dunlop Tire for every purpose.
—For Every type of Rim—
—For Every Pocketbook.

Dunlop Dealers Everywhere Ready to Serve You

Also Makers of Dunlop Rubber Belting, Hose, Packing, etc. Dunlop Rubber Tile Flooring, Dunlop Rubberoleum.

Also the materials for making up shapes and hats. Bring your old hats and plumes, bits of lace, velvet, ribbon, silk, etc., and learn how to clean, trim, re-block and renovate them.

RED DEER 6, CLIVE 4

That it takes more than a pitcher to make a ball team was proven when Red Deer beat out Clive last Friday evening on the latter's diamond by a score of 6-4 in a C.A.B.L. game.

Joe Baldwin, pitching for Clive, fanned 17 Red Deer batters, and allowed but three safe hits off his delivery, but was forced to accept defeat as the losing pitcher. Passed balls and wild throws, mixed with clever base running by Red Deer, spelled defeat for Clive, as these came at a time when 3rd base was occupied and runs resulted.

The Clive boys gathered eight safe hits off Osterland, four of them being for two bags. These hits were scattered, however, and resulted in only one earned run. Twelve Clive batters fell before Osterland's curves, while he contributed the only three-bagger of the game in the seventh frame, when he drove the ball to extreme right field.

Red Deer ran wild on the bases, with a total of seven steals. Clive could not negotiate a stolen base on the McLaren-Malcolm combination. Red Deer chalked up 5 errors, Clive 4.

The wisdom of the double umpire system was proven in this game. On more than one occasion, the decision of the home umpires evened up for either team. This is not as it should be, but, nevertheless, is fairer than allowing one home umpire to call raw decisions consistently.
